- Software Design & Methodology: Design Patterns, SOLID Design Principles, Agile Scrum-Methodology

Projects

- **BUDGETING and REPORTING APPLICATION**

  Team Size -7   **AUG-18 TO MAR-19**
  Role : Front End Developer
  Technology : C#, JavaScript ,MVC, Entity Framework ,WebApi, NUnit, MS SQL

  - Wemart is an Budgeting and Reporting application for Not-IT procurement and maintenance activities
  - Developed web pages for the users to feed the budget details into the tool using
  - .Net MVC Worked along with Backend developers in creating Store Proceduresand Tables
  - Helped in creating document the Functional working of the project which had helped the new joiners to understand the functionality.
  - Written Unit test cases using NUnit considering business needs

- ## TRAVEL BOOKING APPLICATION

Team Size -6   **APR-19 TO SEP-20**
Role:. Full Stack Developer
Technology: Angular 8, C#, Entity Framework,ASP.Net Core Web API, MSSQL, Jasmine
Unit Testing

- It is a website which inter connects internal employees and third party vendors fortravel related transactions.
- Developed webpages using Angular 8 , made service calls with WebAPI and deployment is done through Azure.
- Created Store Procedures as per the User requirements
- Worked in Agile Methodology and delivered the assigned within the deadline
  Used Jasmine Frameworks to write unit test cases in Front End and NUnit testcases for services.

- ## BANKING APPLICATION

Team Size -8   **OCT-20 TO AUG-21**
Role: Full Stack Developer
Technology: Angular8, C#,ASP.NET CORE Entity Framework, LINQ Microservices,MS
SQL, Jasmine Unit Testing

- Its an Analytical and Reporting applications where user can log in their work hourswith respect to their tasks, apply for vacations, visualize the bug list.
- Handled frontend with Angular 8 and Microservices using C#. Used Entity Framework and Linq to handle database operations
- Working close with Senior Developers to get experience in CI/CD pipeline.
  Provided KT to Junior Developer and guided them to resolve their task related issues

- ## REGULATORY REPORTING SERVICE

Team Size – 8   **SEP-21 TO PRESENT**
Role : Full Stack Developer
Technology: C#,ASP.NET CORE ,Entity Framework, LINQ, Microservices, MS
SQL, jQuery, KendoUI, Swagger UI, RabbitMQ

- Sprint planning with scrum for the development & testing based on requirement. Participate in meetings with business analyst to gain knowledge on the requirement based on business.
- Involved in suggesting new ideas at Architecture Level in COP meeting.Development of the code based on requirement with unit testingusing XUnit and 100% code coverage.
- Share knowledge on the project for team joiners and training new projectmembers.
- Take part in scrum meetings and plan everyday work.
  Testing data before delivery to ensure high quality code.
  Help out team members when in need and in peer review.

Education

- ### Kongu Engineering College,Erode   2018
  Bachelor of Engineering in Electronics and Communication
  8.2
